

MOHAMMAD SAAD

Full Stack Developer

+91 8542929798 | mohammdsaad79.ms@gmail.com | github.com/mohammdsaad79 | linkedin.com/in/mohammdsaad79 | myportfolio.com

SUMMARY

Computer Science undergraduate and Full Stack Developer specializing in the MERN stack with hands-on experience through a Frontend Developer Internship and multiple production-ready projects. Proficient in React.js, Node.js, Express.js, MongoDB, REST APIs, authentication systems, and modern UI development. Strong foundation in Data Structures & Algorithms with 300+ coding problems solved. Passionate about building scalable web applications and continuously expanding expertise in software engineering and emerging technologies.

TECHNICAL SKILLS

Programming Languages:	JavaScript (ES6+), Python, C++
Frontend:	React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design
Backend:	Node.js, Express.js, REST APIs, MVC Architecture
Auth & Security:	JWT, bcrypt, Protected Routes, Role-Based Access Control
Database:	MongoDB, SQL
Tools & Platforms:	Git, GitHub, Postman, Razorpay, Vercel, Render, VS Code
Core CS:	Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Frontend Developer Intern

Intment Technology Pvt. Ltd. | Feb 2026 - Present

- Built 10+ production-ready web pages for the DIET Forbesganj College portal using React.js, Next.js, and Tailwind CSS, ensuring scalable user interfaces.
- Created 20+ reusable React components, reducing duplicate code and enabling faster feature implementation across multiple modules.
- Collaborated with a team of 5 developers using Git and GitHub, contributing 50+ commits and maintain code quality.
- Optimized responsive layouts across desktop, tablet, and mobile devices, delivering a consistent user experience for all supported screen sizes.
- Contributed to the successful delivery of a institutional website serving students, faculty, and administrators through modern frontend practices.

PROJECTS

B2B Trading Platform – A Buisness Application

<https://b2b-trading-platform.vercel.app>

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Engineered a full-stack B2B marketplace enabling product discovery, order management, and secure business transactions.
- Integrated JWT authentication, role-based access control, and Razorpay payments to strengthen platform security and usability.
- Designed scalable REST APIs and optimized MongoDB data models to support efficient product and user management.
- Delivered advanced search, filtering, analytics dashboards, and a responsive interface for an enhanced user experience.

Quick Note – Note Management Application

<https://quicknote-mern.vercel.app>

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT

- Created a secure note management platform supporting complete CRUD operations and personalized user workspaces.
- Enabled protected access through JWT-based authentication and authorization mechanisms.
- Architected backend services and API endpoints for efficient note storage, retrieval, and management.
- Leveraged reusable React components to maintain UI consistency and improve code maintainability.
- Deployed the application on Vercel and Render, ensuring seamless accessibility and reliable performance.

EDUCATION

B.Tech – Computer Science & Engineering

Maulana Azad National Urdu University, Hyderabad | CGPA: 8.54

2023 – 2027

Intermediate (Class XII)

Muslim Inter College, Mau | 69.8 %

2020

ACHIEVEMENTS

- Qualified the NxtWave Selection Test, earning access to advanced learning tracks in Full Stack Development, Data Structures & Algorithms, Core Computer Science, Generative AI, and System Design.
- Solved 300+ Data Structures and Algorithms problems, strengthening problem-solving and coding proficiency.
- Developed and deployed multiple full-stack web applications using modern JavaScript technologies.
- Maintaining a CGPA of 8.54/10 in B.Tech Computer Science.
